Objective

As a dedicated and adaptable professional, my objective is to leverage my diverse skills and experiences to drive innovation and contribute to the success of forward-thinking companies in the technology sector. I am committed to continuous learning and growth, seeking opportunities where I can apply my passion for problem-solving and collaborative teamwork to make a meaningful impact.

Education

- 2023 – 2024: ALX Software Engineering Certificate specializing in Backend
- 2018 – 2022: Bachelor of Commerce in Accounting, Kenyatta University
- 2014 – 2017: Kenya Certificate of Secondary Education, Kerugoya Girls High School
- 2005 – 2013: Kenya Certificate of Primary Education, Kaharo Primary School

Project

PixelPalette
- **Team Size**: 3
- **Role**: Frontend Developer, Backend Integration
- **Description**: Developed a platform for art enthusiasts to showcase and view artworks. I worked on the frontend using JavaScript, HTML, CSS, integrated Cloudinary for image storage, and collaborated on the backend with Python, Flask, and MySQL.

AccoTrac
- **Team Size**: 4
- **Role**: Backend Developer, Frontend Integration
- **Description**: Created an accounting web application for managing transactions, sales, and financial reports. I focused on backend development using Python, Flask, and SQLite, and integrated React with Axios for frontend data fetching.

Personal Portfolio
- **Description**: Developed a personal website to showcase projects and blogs using React, Express, Node.js, MongoDB, and GitHub, with a focus on responsive design.
